## Software Developer

✉ ozasoumy2000@gmail.com ☎ +91 9687611260 📍 Ahmedabad, India in Soumy-oza

---

### Objective

---

As a highly skilled Software Developer, my passion for innovation and problem-solving drives me to seek a challenging IT position. I am eager to leverage my technical skills and experience in designing and developing cutting-edge software solutions.

---

### Professional Experience

---

Jan 2023 – Jun 2023  
Ahmedabad, India

**Technomark Solutions LLP. (Internship)**  
**Full Stack Developer**

As a .NET + Angular Developer, I played a crucial role in designing, developing, and implementing innovative software solutions using the .NET framework and Angular. My responsibilities included working collaboratively with cross-functional teams to gather requirements, analyze business needs, and translate them into technical specifications.

Jul 2023 – present  
Ahmedabad, India

**Hi-Tech Smart Solutions**  
**Full Stack Developer**

As a dedicated .NET Developer with a passion for creating innovative solutions, my objective is to leverage my technical expertise and problem-solving skills to contribute to the success of hi-tech smart solutions projects within a product-based company.

---

### Education

---

2021 – 2023  
Ahmedabad, India

**Master's of Computer Application (MCA)**  
**GLS University**

2018 – 2021  
Ahmedabad, India

**Bachelor's of Computer Application (BCA)**  
**GLS University**

---

### Languages

---

English • Hindi • Gujarati

---

### Skill Set

---

**Web Development** (.NET, Angular, NodeJS, HTML/CSS, JavaScript/TypeScript)

**Programming Languages** (C/C++, C#, Java, Python) • **Mobile App Development** (React-Native)

---

## Projects

---

### \* Revords

#### ( Mobile Application in Android, iOS )

- Revords, a cross-platform app built in React Native, rewards users with points for spinning a wheel at locations like CCD and Restaurants. Users can track and claim their earned points, enhancing their experience with a fun and engaging rewards system.

### \* P.G.Discovering

- Created an application that helps to find the nearest P.G. (Paying Guest) with the help of a GPS System. We have used Flutter as a technology and Firebase as a Database.

### \* RPA Project ( Based on Call Center )

- Designed a system for creating an environment for the user that helps them to not wait any longer for the output. It was purely based on Python Language and it's libraries.

### \* WatchStore ( E-Commerce Website )

- This project is purely designed using ASP.NET core and MVC in .NET. This website offers a wide choice of high-quality watches for users to browse and purchase online.

---

## Certificates

---

### Generation of Machine Learning Dataset from RDBMS for Clustering and Association Analysis

We looked into how to create a machine learning dataset from an existing relational database applied unsupervised machine learning algorithms to it.

### Complete guid to ASP.NET Core MVC (.NET 6)

Learned how to develop ASP.NET MUC applications using Visual Studio, C#, and HTML/CSS, and how to utilize the full range of features and capabilities offered by the ASP.NET MVC framework.

### Generation of Machine Learning Dataset from RDBMS for Clustering and Association Analysis

#### Gradiva Review Journal

We looked into how to create a machine learning dataset from an existing relational database applied unsupervised machine learning algorithms to it, assessed those methods, and then compared the results.
