Objective

As a highly skilled Software Developer, my passion for innovation and problem-solving drives me to seek a challenging IT position. I am eager to leverage my technical skills and experience in designing and developing cutting-edge software solutions.

Professional Experience

**Technomark Solutions LLP. (Internship),
Full Stack Developer**

2023 – 2023 | Ahmedabad, India

As a .NET + Angular Developer, I played a crucial role in designing, developing, and implementing innovative software solutions using the .NET framework and Angular. My responsibilities included working collaboratively with cross-functional teams to gather requirements, analyze business needs, and translate them into technical specifications.

Hi-Tech Smart Solutions, Full Stack Developer

July 2023 – present | Ahmedabad, India

As a dedicated .NET Developer with a passion for creating innovative solutions, my objective is to leverage my technical expertise and problem-solving skills to contribute to the success of hi-tech smart solutions projects within a product-based company.

Certificates

Generation of Machine Learning Dataset from RDBMS for Clustering and Association Analysis

We looked into how to create a machine learning dataset from an existing relational database applied unsupervised machine learning algorithms to it.

Complete guid to ASP.NET Core MVC (.NET 6)

Learned how to develop ASP.NET MUC applications using Visual Studio, C#, and HTML/CSS, and how to utilize the full range of features and capabilities offered by the ASP.NET MVC framework.

Projects

*** P.G.Discovering**

- Created an application that helps to find the nearest P.G. (Paying Guest) with the help of a GPS System. We have used Flutter as a technology and Firebase as a Database.

*** RPA Project (Based on Call Center)**

- Designed a system for creating an environment for the user that helps them to not wait any longer for the output. It was purely based on Python Language and it's libraries.

*** WatchStore (E-Commerce Website)**

- This project is purely designed using ASP.NET core and MVC in .NET. This website offers a wide choice of high-quality watches for users to browse and purchase online.
